
Frailty Summer School

Groningen, The Netherlands | 2-7 June 2019

Who can attend?

Junior researchers, PhD candidates, and postdoc researchers.

The interactive program will be tailored to the various types of researchers.

Objectives

- To expand your international and interprofessional network
- To exchange expertise and experience on frailty and frailty research

Learning outcomes

After the Summer School, you will:

- Understand the concept of frailty from different perspectives (e.g., older adults, caregivers, and professionals etc.) and its impact on the individual and societal level
- Be able to assess the construct of frailty from different perspectives, e.g., ageing, malnutrition, physical activity, cognitive functioning, and psychosocial
- Be able to reflect on your own frailty-related research question, research design, data analysis and data interpretation

Registration

To register, please complete the online [form](#)

Registration fee (hotel is not included):

FAITH members: €400

Non-FAITH members: €500

Contact details
